2022-2023

Evergreen Charter School

School Safety Plan

(This Safety Plan Template has been developed by Nassau BOCES for the exclusive use of Nassau County School Districts participating in the Nassau BOCES Health & Safety Training and Information Service. The Plan was written in order to comply with the requirements of the New York State Safe Schools Against Violence in Education (SAVE) legislation. This Plan should be customized as necessary to reflect individual school districts compliance efforts. This Plan is a general, overarching document that can be shared with the public and posted on school district websites by October 15th of each school year as required by law. Parts of the Plan which may include names, contact information and personal information can be redacted for posting purposes. This Plan can also serve as a document for both in-district personnel and the public to better understand the overall requirements of the SAVE legislation. This contrasts to the Building-Level Emergency Response Plan which details specific emergency response procedures, and as such, is a confidential document which cannot be shared with the public, cannot be foiled and is protected under law.)

School Safety Plan

Policy Statement

The School Safety Plan (as required by the SAVE Law – Safe Schools Against Violence in Education – Commissioner of Education Regulation 155.17) has been established to provide for the safety, health and security of both students and staff and allows for input from the entire school community. This particular component of Project SAVE is a comprehensive planning effort that addresses risk reduction/prevention, response and recovery with respect to a variety of emergencies that may occur in the school and its component school buildings.

The Board of Trustees has appointed, a School Safety Team to develop, implement and maintain all provisions of the Plan. This Plan incorporates all Building-Level Emergency Response Plans that have been developed by the Building-Level Emergency Response Teams appointed by the Building Principal. In the event of an emergency or violent incident, the initial response at an individual school building will be the responsibility of the school building Emergency Response Team. Upon activation of the school building Emergency Response Team the Incident Commander or designee and appropriate local emergency response officials will be notified. The nature of any given emergency will dictate the degree of interaction with both State and Local Emergency Response Agencies. The local BOCES Health & Safety Office will assist in development of protocols for accessing these services.

The Public School Safety Plan was made available for public comment 30 days prior to its adoption and provided for participation of the entire school community. The Public School Safety Plan and Building-Level Plans were formally adopted by the Board of Trustees after at least one public hearing/meeting. As required by law, the School Safety Plan is posted on the school website by October 15th of each school year (the Plan may be abridged for posting purposes) and will be reviewed annually by the School Safety Team by September 1st of each school year. Building-Level Emergency Response Plans will be updated by September 1st of each school year by the Building-level Emergency Response Team and filed with both State and Local Police by October 15th of each school year.

The school refuses to tolerate violence or threats of violence on school grounds and, by implementation of this Plan, will make every effort to prevent violent incidents from occurring. We will provide the appropriate authority and budgetary resources in support of this effort. Violence prevention is the responsibility of the entire school community and we encourage participation of all individuals. Our Plan requires the prompt reporting of all violent incidents or threats and assures that victims or reporters of incidents of violence will not be discriminated against.

A copy of the Public School Safety Plan is also available upon request at the front desk at all buildings. Although the Building-Level Emergency Response Plans are linked to the Public School Safety Plan, in accordance with Education Law Section 2801-a, the Building-Level Emergency Response Plan will remain confidential and not be subject to disclosure. This will further ensure safety at the building-level and reduce the potential for planned sabotage.

Training, Drills and Exercises

The best way to train students and staff on emergency response procedures is through annual drills and exercises in each school building. After each drill/exercise or real event, teachers in each classroom will

review the purpose of the drill with students. Based on the determination of the School Safety Team and the Building-Level Emergency Response Team, at a minimum, the following methods may be used:

- Live drill including shelter-in-place, hold-in-place, evacuation, lockdown, and lockout.
- Live drill for specific responses (building systems failure.)
- Situational Drills
- Table top exercises
- Emergency Response Team exercises
- Building pre-clearance searches

The school recognizes that critical evaluation of drills and exercises is the best learning experience and results in improved response procedures. As a result, the school will invite local agencies to participate in and to help evaluate all exercises. These agencies may include but not be limited to the Police and Fire Departments, Rescue and Ambulance Services, Local Office of Emergency Management and the local BOCES Health & Safety Office. The school, at least once every school year, shall conduct one test of its emergency response procedures under each of its Building-level Emergency Response Plans including sheltering, lockdown, or lock-out. Eight (8) evacuation and Four (4) lockdown drills will be completed in each school building every school year. Debriefings will occur after every drill or actual event.

Implementation of School Security

The Emergency Response personnel will help carry out the Building-Wide School Safety Plan and may include anyone in the school community. These individuals have received appropriate annual training as required under the Regulation. Such training has been conducted in cooperation with the Police Department. Appropriate school building security measures and procedures have been determined by the School Safety Team and Building-Level Emergency Response Team after review of school building procedures and practices, emergency response plan, code of conduct, security surveys/audits, and building level climate surveys. Based on these findings we have implemented the following security measures:

- Entrance procedures have been reviewed and revised.
- The School has had a security meeting and assessment of the school buildings conducted by the Nassau County Police Department representatives, local Hempstead Village Police, Nassau BOCES Health and Safety Director, in conjunction with our Building-Level Emergency Response Team.
- Visitors to the building will be questioned prior to entry into the building as to their business and if they have an appointment. If there is any question the building principal will be consulted. If this has been confirmed, they will be admitted to the building where they will sign-in and receive a visitor pass using the Raptor System.
- Visitor badge/sign-in procedures – we utilize a badge system. Upon entry into the building the visitor must show photo identification. Anyone in the building without a visitor badge would be immediately questioned by building staff and an Administrator would be informed.
- Video surveillance – closed-circuit TV security.

- On-going security audits/assessment.
- We will employ any other methods deemed necessary and constantly review our current practices.

Vital Educational Agency Information

Each Building-Level Emergency Response Plan will contain vital information such as school population, number of staff, transportation needs and telephone numbers of key educational officials.

Early Detection of Potentially Violent Behavior (Information & Training)

The School Safety Team will make recommendations for appropriate annual training for students and staff in violence prevention and mental health (on-line training may be utilized). Training will include early warning signs of potentially violent behavior and early intervention/prevention strategies. Training will be conducted by in-house staff, local agencies or others as deemed appropriate. New employees will receive training within 30 days of hire. Hazard Identification

EVERGREEN CHARTER SCHOOL SAFETY PLAN INCLUDES SPECIFIC PROCEDURES

Responses to Violence

(Incident reporting, Investigation, Follow-Up, Evaluation, and Disciplinary Measures)

All incidents of violence, whether or not physical injury has occurred (verbal abuse, threats of violence, etc.), should be reported immediately and documented through the School Safety and Educational Climate (SSEC) Summary Data Collection Form as part of the Dignity for all Students Act (DASA) and Violent and Disruptive Incident Reporting (VADIR). With the realization that employees and students may otherwise be reluctant to come forward, we will maintain confidentiality. Anonymous reporting systems will be utilized if deemed necessary. Individuals will be assured that there will be no reprisal for reporting their concerns. Incidents will be reported as follows:

The School Building Principal/Administrator or Designee will be responsible for receiving and responding to all incident reports including anonymous reports. Information on the reporting process for students and staff will be provided as part of the violence prevention training program. Each incident will be reported to and evaluated by the School Safety Team (Threat Assessment Team) for the purpose of compiling data and evaluating the Violence Prevention Program.

Relationships have been established with the Police Department and other emergency response agencies at the building level. Representatives from these agencies participate on Building-Level School Safety Teams.

Reporting

Once an incident has been reported, and depending on its severity, the School Building Principal/Administrator or Designee will assume responsibility as the Incident Commander.

- Report it to the Police Department.
- Secure the area where the disturbance has occurred.
- Ensure the physical safety/medical management of students/staff remaining in the area as soon as possible.
- Ensure that while responding to the incident, the remainder of the building remains appropriately supervised.

- Quickly assess the area of the incident to determine damage as a result of the incident and if it is safe to remain. If necessary, evacuate or shelter as per the Building-Level Emergency Response Plans.
- Provide incident debriefing to students/staff as needed. Notify parents.

Investigation

After the incident has occurred the Threat Assessment Team will conduct a detailed investigation. It is the purpose of the Team to focus on facts that may prevent recurrence, not find fault. The Team conducting the investigation will:

- Collect facts on how the incident occurred.
- Record information.
- Identify contributing causes.
- Recommend corrective action.
- Encourage appropriate follow-up.
- Consider changes in controls, policy and procedures.

Follow-up

The school recognizes the importance of responding quickly and appropriately to the medical and psychological needs of students/staff following exposure to a violent incident. All individuals affected by a violent act in the school will be provided with appropriate medical and psychological treatment and follow-up. Provisions for medical confidentiality and protection from discrimination will be included to prevent the victims of violent incidents from suffering further loss.

Evaluation

The School Safety Team (Threat Assessment Team) is responsible for ensuring that an initial school building security analysis is conducted and periodically re-evaluated. These physical evaluations will focus on the identification and assessment of school building security hazards and address necessary changes in building practices. These evaluations will review the potential for different types of violent incidents including bomb threats, hostage-taking, intrusions, and kidnapping. Professionals will be utilized from local law enforcement and private consultants as necessary.

Disciplinary Measures

The school Code of Conduct will be the basis for determining the appropriate disciplinary measures that may be necessary.

Code of Conduct

The school has created a detailed Code of Conduct to describe the expected behavior of students, staff and visitors to school buildings and the disciplinary actions resulting for violations of the Code. The Code, which will be communicated to all students/staff and parents, will serve as a major component of our violence prevention program. The Code will be evaluated annually and revised as necessary to reflect changes in school policies and procedures. A copy of the Code of Conduct will be made available to students, parents, staff and community members. The Code of Conduct was updated on 10/15/2022 and made available to parents/guardians.

Emergency Response Protocols: Notification and Activation (Internal and External Communication)

Quick and accurate contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in the Building-Level Emergency Response Plan.

Internal communication is also of prime importance and will be specifically defined in the Building-Level Emergency Response Plan. Depending on the nature of the emergency, some of the communication methods will include telephone, fax/e-mail, school radio system, NOAA weather radio, intercom, local media, emergency alert system, cellular phones, and others as deemed necessary. Appropriate notifications and methods will be determined by the District-Wide School Safety Team.

The President of the Board of Trustees recognizes his/her responsibility to notify all educational agencies within the school district of a disaster and has established the following notification list:

School	Phone	Fax
Hempstead UFSD Superintendent	516-434-4010	516- 292-0933

In general, parent/guardian notification will be conducted utilizing the school's mass notification system. The school recognizes that many different types of emergency situations may arise resulting in emergency specific responses. A detailed listing of emergency responses is included in each Building-Level Emergency Response Plan, specifically addressing Criminal Offenses, Fire and Explosion, Medical Emergencies, Natural Hazards, System Failure and Technological Hazards. Each Building-Level Emergency Response Team will be responsible for reviewing and updating these responses and communicating them to students and staff. The following emergency situations are of prime importance:

Bomb Threats

All school administrators have familiarized themselves with the Bomb Threat Standards outlined in the Building-Level Emergency Response Plan so that appropriate decisions may be made depending on the

exact nature of the situation. Issues such as searches, pre-clearance, weather conditions, evacuation, sheltering, notification, returning to the building and false bomb threat prevention are addressed in the Building Plan. The FBI Bomb Threat Call Checklist will be available at phone reception areas.

Hostage Taking

The Building-Level Emergency Response Plan for Missing/Abducted/Kidnapped Student procedures will be followed in the event of a hostage situation. In general, the following response actions will be taken:

- The first person aware of the situation will immediately notify the principal's office and call 911.
- The School Principal or designee will issue the appropriate alert if necessary and isolate the area.
- The School Principal or designee will notify the President of the Board of Trustees. No response to the media will be given at this time.
- The School Principal or designee will turn over authority to the police upon their arrival and assist as requested.

Intrusions

The Building-Level Emergency Response Plan hazard specific procedures will be followed in the event of an intrusion. In general, the following response action will be taken:

- The first person becoming aware of an intruder or suspicious person will immediately report this information to the principal's office.
- The Principal or designee will approach the intruder to determine the nature of their presence and ask them for identification.
- The Principal or designee will accompany the individual(s) to the proper office or if no acceptable purpose can be ascertained, ask the individual(s) to leave. The principal or designee should ensure that the individual(s) has exited the building and alert staff to prevent unrecognized re-entry.
- If the individual(s) refuse to leave, inform them that they are in violation of the law and that the police will be notified. Notify building security if available and Dial 911 or other appropriate emergency notification.
- If the situation escalates, plain language will be utilized to notify all building occupants to lockdown according to predefined procedures.
- The Building Principal should be prepared to relinquish authority and assist the first emergency responder from the police or emergency services.

Kidnapping

The Building-Level Emergency Response Plan procedures will be followed in the event of a kidnapping. In general, the following response action will be taken:

During school hours, when a student has already been documented as present, the first person aware of a kidnapping or missing student will immediately notify the principal's office who will obtain student

information and photo I.D. School building staff and security personnel will search the building and also utilize the public announcement system.

- Parent/guardian will be notified. If student is not found, police will be notified.
- The School Principal will turn over the investigation to the police upon arrival and assist as requested. No information is to be released to the media.
- Parents will be notified immediately if the student is located.

During school hours, when a student has not arrived at school, parent or guardian will immediately be contacted. Parents should be asked to contact the school if the student is located.

- If a student is not legally absent he/she could be lost, a runaway or truant (determine if any friends are also missing).
- The student's means of transportation to school should be reviewed. If student is not located, the police should be notified. Student information and photo I.D. will be obtained.
- The School Principal will be notified.
- The School Principal will turn over the investigation to the police upon arrival and assist as requested. No information is to be released to the media.
- Parents will be notified immediately if the student is located.

After school hours, when a student has not arrived at home, the school may be notified by a concerned parent/guardian.

- Gather any information available on the student and their departure from school.
- Advise parent/guardian to contact friends.
- Advise parent/guardian to contact police if student is not located. School principal or designee should be available for police investigation.
- Ask parent/guardian to re-contact school if student is located.

School Building Chain-of-Command Table

EVERGREEN CHARTER SCHOOL SAFETY PLAN INCLUDES SPECIFIC PROCEDURES

Emergency Assistance and Advice from Local Government

Depending on the nature of the emergency, the school may need to obtain assistance from local government agencies. During an emergency the Incident Commander will contact 911 to obtain emergency services. Other agencies that may be contacted to obtain assistance may include the Red Cross, Fire Department, Hempstead Village Police Department, Nassau County Office of Emergency (Commissioner), Nassau County Department of Mental Health, Nassau BOCES District Superintendent, Private Industry Groups, Religious Organizations, among others. For specific assistance beyond the scope of the school's resources, the Nassau County Office of Emergency Management will coordinate with State and Federal agencies and assist in all post-incident response. These contacts are clearly delineated in the Building-Level Emergency Response Plans.

District Resources Use and Coordination

Building-Level Emergency Response Plans will address the identification, availability, and use of resources. This will include procedures for coordination of these resources including manpower and Chain-Of-Command.

Protective Action Options

Building-Level Emergency Response Plans, which are confidential, address the following response actions as determined by the nature of the emergency. Specific response actions are explained in detail in each building plan:

School Cancellation (conditions warrant making a decision not to open schools)

Early Dismissal (conditions warrant returning students to their homes)

Evacuation (conditions in the building are unsafe warranting relocation)

Sheltering (conditions warrant movement to a safe place in the building)

- Shelter-In-Place (weather related)
- Shelter-In-Place (generic/non-specific bomb threat)
- Shelter-In-Place (specific bomb threat)

Hold-In-Place (conditions warrant isolation of a specific area of the building – usually short-term)

Lockdown (the most serious situation for a school – a threat is in the building)

Lockout (a threat exists outside the school building or in the vicinity)

National Terrorism Advisory System (NTAS)

NTAS advisories – whether they be Alerts or Bulletins – encourage individuals to follow the guidance provided by state and local officials and to report suspicious activity. Where possible and applicable, NTAS advisories will include steps that individuals and communities can take to protect themselves from the threat as well as help detect or prevent an attack before it happens. Individuals should review the information contained in the Alert or Bulletin, and based upon the circumstances, take the recommended precautionary or preparedness measures for themselves and their families.

Bulletin:

Describes current developments or general trends regarding threats of terrorism.

Elevated Threat Alert:

Warns of a credible terrorism threat against the United States.

Imminent Threat Alert:

Warns of a credible, specific, and impending terrorism threat against the United States.

Individuals should report suspicious activity to local law enforcement authorities. Often, local law enforcement and public safety officials will be best positioned to provide specific details on what indicators to look for and how to report suspicious activity. The If You See Something, Say Something™ campaign across the United States encourages the public and leaders of communities to be vigilant for indicators of potential terroristic activity, and to follow the guidance provided by the advisory and/or state and local officials for information about threats in specific places or for identifying specific types of suspicious activity.

Recovery – School District Support for Buildings

The Emergency Response Teams and the Post-Incident Response Teams will be supported in their efforts by all available in-district resources and personnel as required by the nature of the emergency. County and State resources and personnel will be obtained as dictated by the nature of the emergency.

A School Support Team will be available when necessary to assist all school buildings in their response effort. This Team will be composed of:

- President of the Board of Trustees
- School Director of Finance and Operations
- Administrators
- Facilities Manager
- Special Ed Coordinator
- Director of Food Services
- School Nurse
- School Counselor/Social Worker

Disaster Mental Health Services

The Building-Level Emergency Response Team will designate the Post-Incident Response Team in each school building to respond in crisis situations and help provide disaster mental health services as outlined in our Building-Level Emergency Response Plan. Depending on the scope of the situation, the Nassau County Office of Emergency Management and Department of Mental Health may be contacted to help coordinate a County or State-Wide effort.

Forms and Recordkeeping

The success of our Violence Prevention Program will be greatly enhanced by our ability to document and accurately report on various elements of the program along with training staff on our Plan. This will allow us to monitor its success and update the program as necessary. Forms, resources, and training

materials have been developed for this purpose and can be obtained on the Nassau Schools Emergency Planning Consortium Website at: www.nassauschoolemergency.org under the Safety Plans tab.
